

If you thought Napa Valley Wines were good, just wait until you taste the Vodka!

NAPA VODKA Vintage 2008

“The World’s First Vintage Vodka”

Our 2008 Napa Vodka is handcrafted to highlight the unique qualities of Vintage Napa Valley grapes. Absolutely zero additives or flavors were used to make Napa Vodka. What you’ll taste is just the pure and natural essence of one of the rarest ingredients to go into a bottle of Vodka.

Ingredients: Only 100% premium Napa Valley Sauvignon Blanc harvested from a single vintage and a single Napa estate are used to make Napa Vodka, making it the world’s first true “Vintage Vodka”. No Vodka has ever been created with such highly-prized ingredients. The results are nothing short of extraordinary!

Craftsmanship: Using old-world techniques, Napa Vodka requires the efforts of award winning Napa Valley Winemakers, Grape Growers and our very own Master Distiller, who oversees every step of the production process to make sure that Napa Vodka gets just the right amount of the fruit characteristics we want while still possessing the power and back-bone of a true world-class, ultra-luxury Vodka.

Distillation: Napa Vodka is distilled completely by hand 6 times in an original Vendome Copper Pot Still.

Filtration: Napa Vodka is filtered 10 times through activated bone charcoal and platinum plated filters.

Water: Natural spring water from Northern California is first de-ionized to remove its mineral content and then charcoal filtered removing even the slightest impurity before it’s even blended with our rare spirit. The end result is a pure, neutral tasting water that allows the true essence of our single vintage, Napa Valley Sauvignon Blanc to shine through.

Tasting Notes: Smooth enough to sip at room temperature, yet flavorful enough to create a stand-alone Martini. Napa Vodka is crisp and clean with the character and elegance that one would expect from Vodka born from such rare and premium ingredients. It is without comparison and truly unique.

Production: Limited to less than 1500 cases per year. (3 x 750ml)

Packaging: Individually hand numbered bottles encased in a matching gift box with product booklet.
